---

SKILLS

React Native, TypeScript, JavaScript, Mobile Application Development, Redux, Zustand, Git, Bitbucket, GraphQL, RESTful APIs, JSON, Unit Testing, Jest, Jira, App Store Deployment, Google Play Deployment, Mobile UI/UX Design, Xcode, Android Studio, Native Build Tools, Cross-Platform Development, State Management

---

PROFESSIONAL EXPERIENCE

CAPGEMINI   **DEC 2024 - Present**

Application Developer

Joined as a React Native Developer, focusing on mobile application development using React Native, JavaScript, and Redux. Currently enhancing skills in performance optimization, state management, and debugging while awaiting project allocation. Actively participating in knowledge-sharing sessions, staying updated on the latest industry trends, and preparing for future project contributions.

LIANGTUANG TECHNOLOGIES PVT. LTD   **JAN 2021 - DEC 2024**

React Native Developer/ Php Developer

As a Software Developer, I lead the full-cycle development of a travel app for both iOS and Android. My responsibilities include feature design, code quality, performance optimization, testing, debugging, and API integration. I collaborate with product managers and designers to deliver high-quality solutions and manage the codebase using Git. Key achievements include launching app versions with high user ratings, optimizing performance, and migrating legacy code to React Native.

PROJECTS

Liamtra

Liamtra is a comprehensive travel app developed in React Native, designed to offer users a seamless booking experience for flights, hotels, unique homes, and other travel services. In addition to its primary travel functionality, Liamtra incorporates a social component, allowing users to post images and videos, follow other users, and build connections within the app. This dual focus on travel and social interaction enhances the user experience by combining practical travel solutions with engaging social features

IOS App: https://apps.apple.com/in/app/liamtra-something-for-everyone/id1460693096

HillyPix

HillyPix is an under-development OTT platform tailored specifically for content and audiences in the North East region. The platform will offer a range of features including seamless video playback, the ability to resume watching from where you left off, offline downloads, and a watch-later option. HillyPix aims to provide a localized streaming experience with a focus on North East content, catering to the unique preferences and needs of its target audience.

IOS App: https://apps.apple.com/in/app/hillypix/id6456844867

HOBBIES

Outside of work, I find joy in listening to music, engaging in sports, and watching movies. These hobbies not only provide relaxation but also contribute to my personal development. They enhance my attention to detail, spark creativity, and improve organizational skills, enriching both my professional and personal life.
